

CABLE ASSEMBLIES & SENSING SOLUTIONS

CABLE ASSEMBLIES

We work closely with high quality cable assembly suppliers to offer a large variety of state of the art cable assemblies. Paired with our long-standing expertise in the cable assemblies sector, we provide tailor-made solutions for all kinds of businesses. Our professional focus lies mainly on the following applications: industrial control, automotive, consumer, medical

Basically any idea customers have in mind can be developed into the perfect cable assemblies solution. We currently supply our customers, amongst others, with:

- internal and external harness
- wire harness
- shielded data lines
- Flat strip cables

Thanks to the variety of our business partners, we can proudly offer you each and every existing cable and connector on the market.

We also provide individual solutions for your applications in areas such as overmoulding, design, shaping, length, labelling, etc.

We encourage you to set your goals high. You can be assured, that we support your ideas all the way – from the development of your idea to the creation of the perfect design and finally the production of your product.

We look forward to hearing your ideas and requests!

CUSTOM SENSING SOLUTIONS

Due to our profound knowledge of cable assemblies we can offer you customized sensing solutions. Any idea you have in mind for your applications can be fulfilled. Our state of the art technology can be used to detect objects, distance, presence, orientation, temperature, levels, speed, rotation, amongst many others.

TECHNICAL FEASIBILITY

As soon as you tell us what application you have in mind, we get down to work. Our in-house development department compiles a feasibility study for your application, where the desired product features are defined. Then our product managers will develop a functional prototype (if necessary, more than one). Depending on the complexity of the project, we will offer you the prototype free of charge, so you can convince yourself of its quality.

This service is particularly appreciated by our customers and leads to a highly efficient process.

MASS PRODUCTION

The mass production of your product will be conducted by one of our premium partners. When you are satisfied with our concept, we will find you the best product and price performance for your application. Finally, we will make sure that the production process runs smoothly.

We are always keen to find you the best offer and we will not rest until all your requirements are met.

OUR CABLE ASSEMBLIES EXPERTS

Get in touch with our experts and benefit from our profound knowledge and long-standing experience.

PHILOSOPHY & MISSION STATEMENT

For our customers we are not only suppliers and for our suppliers we are not only customers – we are the connecting partner between both.

Our mission is to establish an intensive and long-term relationship with our business partners based on trust and respect. We count on competence, loyalty, quality and an appropriate knowledge of the market. Due to our size and company structure we are able to act fast and with flexibility according to the needs of our partners. Business deals are finally made by persons with persons. Therefore humans are always number one, as customer, as supplier and as employee. Our attitude towards other people is always fair-minded and human, because only a climate of confidence can create operational excellence. Our teamwork is based on competence and respect, sometimes even friendship. Problems are solved with fairness and in partnership.

INTEGRATED MANAGEMENT SYSTEM

Our ISO 9001:2015 and ISO 14001:2015 certified Management System guarantees companywide comprehensible operations and ensures a constant quality level of our products and provisions of service. All our operations focus on environmental protection, energy and materials consumption, as well as waste minimisation and reduction.

CONSULTING

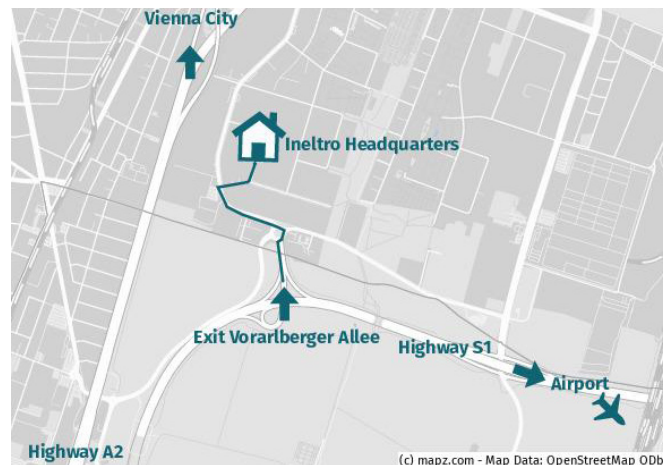

Ineltro offers comprehensive support during product development. Our sales and product managers with several years of experience in their product areas will focus on your specific technical needs. They will advise you on all products in our delivery programme. This starts at the design in with the examination of all possible solutions, the selection of appropriate components up to the transition into mass production. We share our knowledge with you.

WAREHOUSE

The total storage area of our warehouse is 1900 m². 1200 m² comprised of 1260 pallet locations on 4 high-rack levels and a further 700 m² storage area accommodated in 7 modern vertical Megamat carousels.

AWARDS

„Together we want to be the best“ – this is the slogan with which Ineltro endeavours to fulfil customer expectations. We are delighted that important customers appreciate our efforts by granting awards and prizes to us again and again. To be amongst the best suppliers makes us very proud and satisfied. The positive feedback shows that we really meet customer expectations and that we are on the right track. At the same time it binds us to our motto “Together we want to be the best” also for the future.
